Subject: RE: Information needed for Gold King Mine release - R6 estimates

Hi Dave,

Yeah, our numbers are about half in regards to people. We are sharing an ICP with them but it could be that the stretch of river is predominately in their regions and they need more resources. However, with that said, they're still at the assessment stage of trying figure things out so it could go either up or down for us. Will keep you posted.

Thanks Barbara – I was surprised to hear the numbers of people R6 & R8 were deploying. Also, folks in R8 were “self deploying!” It looks like they both are standing up full incident commands.

Subject: **Information needed for Gold King Mine release**

Ben and Laura-

Great discussion this morning. We have confirmed that the 9R funds can be used for payroll (YAY).

As you are gathering your estimates, please be sure to include what is listed below. OEM will need these estimates and timeframes before we can go forward to the Budget office.

1) the amount estimated for extramural for R8 and if this includes work in R 6&9, if not please include their estimates; **\$6 million without ERRS. NOTE: We will use R8's estimate on ERRS costs.**

2) the amount estimated for overtime for R 6,8 & 9; **\$2.06 million for 60 people**

3) the amount estimated for site travel for R 6, 8 & 9; **\$582,400**

4) Timeframes. If you can segment the work/ needed resources or estimate this much payroll, travel, contractor costs etc will get us through ? **This is from the inception to September 30th.**

Thanks

-lisa
